

The Illinois Academy of General Dentistry in conjunction with the Wisconsin Academy of General Dentistry are pleased to present this program leading to Mastership certification in the Academy. To complete the Mastership Program, candidates must enroll for 600 hours of continuing education, 400 of which must be of participatory nature.

CE Credits

16 hours of participation credit for those who attend the 2 days of lecture and hands-on. 34 total hours of participation credit to those who attend the 2 days of lecture and hands-on, complete the assigned protocol in their office, and return to document the protocol assignment.

Protocol Reporting Session

The reporting session for in-office protocols from previous Mastertrack sessions will be held at 5:00 PM on Thursday, Sept. 14, 2017 in Gallery 2 of the Springhill Suites Elmhurst, 410 West Lake Street, Elmhurst.

Please RSVP to Dr. Sy Wachtenheim by Sept. 7, 2017 to present protocol reports on past Mastertrack Sessions.

Meals

Attendees will be furnished a continental breakfast each morning, lunch each day, and a Friday night banquet, the Dr. Barry Karlov Memorial Bash, at the Springhill Suites Elmhurst.

Who Should Attend?

These hands-on programs were originally designed for AGD Fellows striving to be AGD Masters, but we've learned that these programs can be valuable to all dentists—from new grads to the most experienced clinicians.

Speaker's Biography

Dr. Horowitz received his undergraduate degree from the University of Pittsburg & his DMD degree from the Medical University of South Carolina. He completed a general practice residency at Mountainside Hospital in Montclair, NJ. He founded the Carolina Center for Cosmetic & Restorative Dentistry, a multi-disciplinary group practice in the Conway/Myrtle Beach, SC area. An admitted CE junkie, he has earned AGD Fellowship. He is a key opinion leader & lecturer for many professional groups & organizations.

Course Description

We have all heard the arguments. Does the occlusion cause the joint problem or does the joint cause the occlusal problem? What role do facial patterns and muscles play? This program takes many of the current concepts in these somewhat confusing disciplines and organizes them in a way so that most practitioners can comfortably differentiate the etiology of occlusal disease, diagnose TMJ disorders, and predict long term success for the restored or non-restored dentition.

Course Objectives

1. Differentiate between iatrogenic, foundational, & transient occlusal disorders
2. Use diagnostic imaging and testing to aid in diagnosis
3. Understand the role of the airway and skeletal patterns with regard to diagnosis and treatment.
4. Understand the appropriate treatment and sequencing based on etiology of the disease.
5. Tips, tools and materials used within these disciplines.

Name _____	City _____	State _____	Zip _____
Address _____	Office Phone _____	Cell Phone _____
