# The Wonderful World of Children...Marvin's Garden of Tips

Children today are not the children of yesterday. Parents are in a dilemma about child rearing and arrive in our offices in states of anxiety with kids who are wreaking havoc upon their parents, teachers, doctors and all authority figures. Permissiveness has become the guideline for parents. "No! Stop! Please and Thank you!" are becoming extinct. Instead we have "self-esteem", "quality time" and "time-out". Add to the mix the increasing number of children with special needs. Sharing his not-to-be-believed, live-action videotapes, Dr. Berman will vividly illustrate a multitude of tricks and techniques for turning even the most recalcitrant child into a cooperative one, without mind-altering drugs or pa-poose boards. A don't miss learning experience

## CE CREDITS

7 hours of *lecture* credit may be used towards FAGD, MAGD or relicensure for dentists and hygienists.

## ACKNOWLEDGEMENT

Presenting a program of this nature is a group effort, and would not be possible without the assistance of many individuals and companies. A complete listing of contributing companies will be available at the program site.

## Course Objectives:

- Gain the confidence to work with reluctant child patients without sedation or restraints
- Gain a better understanding of the dynamics of parent-child relationships and how they affect the establishment of child-dentist rapport
- Broaden clinical pediatric judgment including current methodology for caries prevention, diagnosis, operative dentistry and local anesthesia
- Integrate and expand the responsibilities of the dental team in order to better manage the treatment of young children
