

CBCT: An Interactive Workshop

Presented by Richard Monahan, DDS, MS, JD,
Board Certified in Oral and Maxillofacial Radiology
3 CE credits—Participation
Subject code: 731—Digital Radiology

Understanding 3D imaging will help you place better implants.

Your patients are three-dimensional. Only a three-dimensional scan can present the most accurate view of their bone structure.

The general dentist is an oral health specialist.

You are the patient's first line of defense in identifying undiagnosed fractures, tumors, or even cancer.

The next generation of dentists are learning to read three-dimensional scans. Don't get left behind!

Location

University of Illinois at Chicago
UIC College of Dentistry
Chicago, IL

Sessions

May 6: 1–4 p.m.
May 7: 9 a.m. to noon; 1–4 p.m.
June 10: 1–4 p.m.
June 11: 9 a.m. to noon; 1–4 p.m.
