

The Illinois Academy of General Dentistry in conjunction with the Wisconsin Academy of General Dentistry are pleased to present this program leading to Mastership certification in the Academy. To complete the Mastership Program, candidates must enroll for 600 hours of continuing education, 400 of which must be of participatory nature.

CE Credits

16 hours of participation credit for those who attend the 2 days of lecture and hands-on. 34 total hours of participation credit to those who attend the 2 days of lecture and hands-on, complete the assigned protocol in their office, and return to document the protocol assignment.

Protocol Reporting Session

The reporting session for in-office protocols from previous Mastertrack sessions will be held at 5:00 PM on Thursday, Oct. 27, 2016 at the DoubleTree by Hilton, Wood Dale, IL. **Please RSVP to Dr. Sy Wachtenheim by October 19, 2016 to present protocol reports on past Mastertrack Sessions.**

Meals

Attendees will be furnished a continental breakfast each morning, lunch each day, and a Friday night banquet, the Dr. Barry Karlov Memorial Bash, at the DoubleTree by Hilton in Wood Dale.

Who Should Attend?

These hands-on programs were originally designed for AGD Fellows striving to be AGD Masters, but we've learned that these programs can be valuable to all dentists—from new grads to the most experienced clinicians.

Speaker's Biography

Dr. Lee Ann Brady is a nationally recognized educator, lecturer and author. She has previously served as Clinical Director of the Pankey Institute and Executive VP of Spear Education. She now serves as Director of Education for Clinical Mastery. She has a private restorative practice in Glendale, Arizona, and serves on the editorial board of three dental publications. For Dr. Brady's complete biography, see ilagd.org.

Course Description

Placing composite restorations is a routine component of restorative practice. From Class 2 restorations to labial composite veneers they can differentiate your practice as ordinary or extraordinary. We will discuss the variety of materials and techniques available today to take your composites to the next level, so your team and patients are raving about the esthetic results. We will discuss total etch and self etch techniques, as well as the risks and benefits of each. We will offer a systematic method of evaluating different generations of dental adhesives.

Course Objectives

- Understanding composite materials for restorative dentistry
- Review and learn adhesive and bonding techniques
- Learn how to correctly use matrices for form and fit
- Learn posterior composite tips and techniques
- Learn finishing & polishing.

New Dentists!!!

Two full Scholarships will be made available at each program to AGD member dentists who have graduated less than 3 years ago! For information, contact: Dr. Sy Wachtenheim at tzaner2@gmail.com or call 847-858-1927.
