

The Illinois Academy of General Dentistry, in conjunction with the Wisconsin Academy of General Dentistry, are pleased to present this program leading to Mastership certification in the Academy. To complete the Mastership Program, candidates must enroll for 600 hours of continuing education, 400 of which must be of participatory nature.

### CE Credits

16 hours of participation credit for those who attend the 2 days of lecture and hands-on. 34 total hours of participation credit to those who attend the 2 days of lecture and hands-on, complete the assigned protocol in their office, and return to document the protocol assignment.

### Protocol Reporting Session

The reporting session for in-office protocols from previous Mastertrack sessions will be held at 5:00 PM on Thursday, Sept. 26, 2019, at Courtyard by Marriott Wood Dale/Itasca, 900 N. Wood Dale Rd, Wood Dale, IL 60101

**Please RSVP to Dr. Sy Wachtenheim by Sept. 19, 2018 to present protocol reports on past Mastertrack Sessions.**

### Meals

Attendees will be furnished a continental breakfast each morning, lunch each day, and a Friday night banquet, the Dr. Daniel Beer Memorial Bash.

### Who Should Attend?

These hands-on programs were originally designed for AGD Fellows striving to be AGD Masters, but we've learned that these programs can be valuable to all dentists—from new grads to the most experienced clinicians.

### Program Site

Midway Education Center  
185 Hansen Ct. Suite 110  
Wood Dale, IL 60191  
800-474-6111

### Illinois Academy of General Dentistry

**Register Online at [ILAGD.org](http://ILAGD.org)**

## Speaker's Biography

Dr. Koerner is an Associate Professor of Oral Surgery at Roseman University of Health Sciences, College of Dental Medicine in Utah. He has presented hundreds of didactic and participation oral surgery courses in the US and around the world. Though not an oral surgeon, Dr. Koerner received surgery training in the US Army, where he completed a general practice residency. Dr. Koerner has had many dental publications.

## Course Description

Many extractions look easy but can quickly become difficult, time consuming, and lead to problems. We will review the best techniques and instruments to remove surgical extractions easily and quickly while preserving bone. We will also cover multiple extractions, alveoplasty, exostosis removal, along with avoiding or managing common surgical complications such as sinus misadventures, excessive bleeding, and tuberosity fractures. Also included, as time permits: bone grafting, excisional biopsies, and other related topics.

## Course Objectives

- To more easily and quickly do "surgical" or difficult extractions
- To be more proficient at ridge preparation for dentures following multiple extractions
- To prevent and/or manage complications that can occur during oral surgery
- To perform predictable socket bone grafting
- Common special needs will be addressed. Strategies will be discussed to facilitate treatment to reach those treatment objectives.

*Presenting a program of this nature is a group effort and would not be possible without the assistance of many individuals and companies. A complete listing of contributing companies will be available at the program site.*

Name _____	City _____	State _____	Zip _____
Address _____	Office Phone _____	Cell Phone _____	
<input type="checkbox"/> Will attend, or... <input type="checkbox"/> Will not attend Friday night banquet, # attending _____	Email address _____		
Sept. 27-28, 2019, Oral Surgery - Karl Koerner (2 Days)
