

2021 Annual Appeal

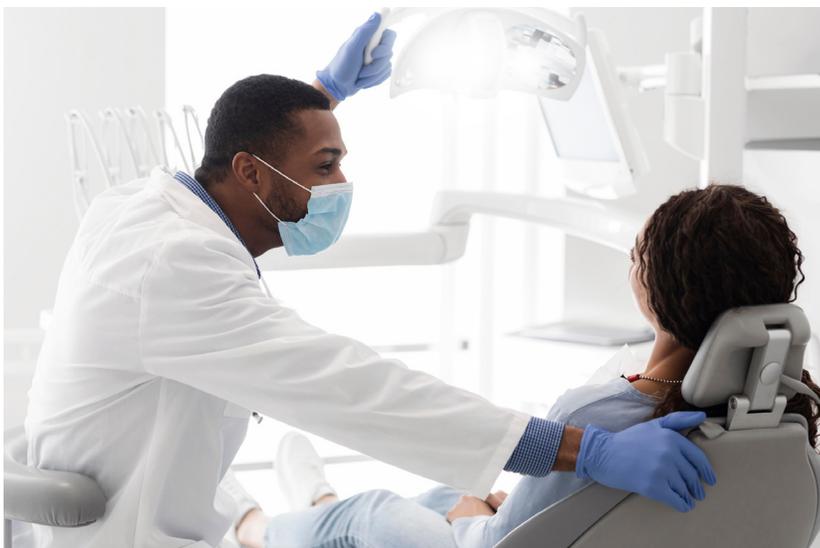

The AGD Foundation's Mission

The mission of the Academy of General Dentistry Foundation (AGDF) – the philanthropic arm of the AGD – is to support the efforts of the general dentist toward improving the public's oral health.

Oral and oropharyngeal cancer is the sixth most common form of cancer worldwide. In the United States, over 50,000 Americans are expected to be diagnosed this year alone.

It will cause over 9,750 deaths, killing roughly 1 person per hour, 24 hours per day.

Oral and oropharyngeal cancer is particularly dangerous because it can go unnoticed in its preliminary stages. Early detection is key, and, in many cases, a dentist is the first health care provider to identify early signs and symptoms. Therefore, they are a first line of defense against this deadly disease.

Why Your Support Is Vital

Your donation to the AGD Foundation will expand the number of dentists and patients we are able to impact with our oral cancer screening and awareness programs. The AGD Foundation's Annual Fund goal is \$250,000. These critical funds will be used to meet the following objectives:

- Develop and create easily accessible oral cancer educational resources for AGD members and the greater dental and medical community
- Fund proactive oral cancer screenings throughout the United States
- Increase annual grants awarded to AGD constituents and other organizations to fund oral and oropharyngeal cancer awareness and early detection programs

Donor Recognition Levels

All donations help the Foundation in our quest to increase the awareness and detection of oral and oropharyngeal cancer, while providing educational resources for AGD members and the greater general dentistry community. With the increasing incidence of HPV-related oral and oropharyngeal cancer, the work of the Foundation is critical. By investing in the AGD Foundation, you help grow our cornerstone programs and expand our reach.
