

The Illinois Academy of General Dentistry in conjunction with the Wisconsin Academy of General Dentistry are pleased to present this program leading to Mastership certification in the Academy. To complete the Mastership Program, candidates must enroll for 600 hours of continuing education, 400 of which must be of participatory nature.

CE Credits

16 hours of participation credit for those who attend the 2 days of lecture and hands-on. 34 total hours of participation credit to those who attend the 2 days of lecture and hands-on, complete the assigned protocol in their office, and return to document the protocol assignment.

Protocol Reporting Session

The reporting session for in-office protocols from previous Mastertrack sessions will be held at 5:00 PM on Thursday, May 11, 2017 in Gallery 2 of the Springhill Suites Elmhurst, 410 West Lake Street, Elmhurst.

Please RSVP to Dr. Sy Wachtenheim by May 4, 2017 to present protocol reports on past Mastertrack Sessions.

Meals

Attendees will be furnished a continental breakfast each morning, lunch each day, and a Friday night banquet, the Dr. Barry Karlov Memorial Bash, at the Springhill Suites in Elmhurst.

Who Should Attend?

These hands-on programs were originally designed for AGD Fellows striving to be AGD Masters, but we've learned that these programs can be valuable to all dentists—from new grads to the most experienced clinicians.

Speaker's Biography

Dr. Paul Petrunaro is internationally recognized for his educational and clinical contributions to modern dentistry. He graduated from Loyola University Dental School in 1986. He completed his residency in Periodontics, receiving a MS in Periodontics as well as a specialty certificate in Periodontics. He has been in the private practice of Periodontics & Implantology since 1988. He is a Diplomate of the International Congress of Oral Implantologists. Dr. Petrunaro continuously contributes to many innovations in multiple disciplines of surgical dentistry.

Course Description

This course will cover the basics of diagnosis and treatment planning and how it applies to the general practitioner learning how to incorporate the surgical & prosthetic aspects of implant dentistry into their everyday practice. Edentulous sites, extraction cases with simultaneous implant placement and immediate provisionalization will be covered. The prosthetic connection and phases of the procedures will be reviewed and their role in the surgical plan will be emphasized.

Course Objectives

1. Learn to diagnose & treatment plan basic and advanced implant cases from CT scans and panoramic radiographs.
2. Learn to select the appropriate abutment and prosthetic components to optimize esthetics and long term biologic health.
3. Learn immediate provisionalization techniques to sculpt natural soft tissue emergence profiles in the esthetic zone.
4. Learn appropriate impression techniques to adequately transfer the implant position and platform to the laboratory for restorative success.

5. Learn to restore partial and fully edentulous cases.
6. Extensive hands on exercises.

New Dentists!!!

Two full Scholarships will be made available at each program to AGD member dentists who have graduated less than 3 years ago! For information, contact: Dr. Sy Wachtenheim at tzaner2@gmail.com or call 847-858-1927.

Many of our programs allow the Course Director to award CE credits in a number of different subject codes. For further information please consult Dr. Sy Wachtenheim.

Presenting a program of this nature is a group effort and would not be possible without the assistance of many individuals and companies. A complete listing of contributing companies will be available at the program site.
