

The Illinois Academy of General Dentistry, in conjunction with the Wisconsin Academy of General Dentistry, is pleased to present this program leading to Mastership certification in the Academy. To complete the Mastership Program, candidates must enroll for 600 hours of continuing education, 400 of which must be of participatory nature.

CE Credits

16 hours of participation credit for those who attend the 2 days of lecture and hands-on. 34 total hours of participation credit to those who attend the 2 days of lecture and hands-on, complete the assigned protocol in their office, and return to document the protocol assignment.

Protocol Reporting Session

Protocol reporting will now be done virtually by pre-arranging with the Mastertrack directors.

Who Should Attend?

These hands-on programs were originally designed for AGD Fellows striving to be AGD Masters, but we've learned that these programs can be valuable to all dentists—from new grads to the most experienced clinicians.

Occlusion in Everyday Dentistry — The Art of Treatment Planning

Dr. Lee Ann Brady

**Friday & Saturday,
September 11-12, 2020**

Covid-19 Pandemic

**All of our programs will be
virtual until the pandemic ends.**

Since all of our programs require
participation, participants may be most
comfortable using their office as the venue.

Speaker's Biography

Dr. Lee Ann Brady is a private practice dentist and nationally recognized educator, lecturer and author. She is currently Director of Education of the Pankey Institute. Dr. Brady has also developed a vast library of online instruction at leannbrady.com and at restorativnation.com. She practices in Glendale, Arizona and is on the editorial boards for the Journal of Cosmetic Dentistry, Inside Dentistry, and Dentaltown Magazine.

Occlusion in Everyday Dentistry

In this session we will explore the concepts of occlusion we face every day in a restorative practice and look at how we can make our dentistry more predictable.

The hands-on portion of the Occlusion program will require a dental chair and a "patient" to practice one exercise. The patient can be a staff member, family member etc. The details will be outlined on the website by August.

Learning Objectives

- Signs of occlusal disease
- Anterior guidance
- Occlusion in a restorative practice
- Understanding restorative materials
- Understanding & managing functional risk
- Creating patient ownership
- Centric relation

Treatment Planning

This interactive lecture covers broad areas of esthetics, function and health. We will look at the decision points and data necessary to plan for success in all 3 areas. Participants will actively plan treatment and discuss multiple cases.
