

The Illinois Academy of General Dentistry in conjunction with the Wisconsin Academy of General Dentistry are pleased to present this program leading to Mastership certification in the Academy. To complete the Mastership Program, candidates must enroll for 600 hours of continuing education, 400 of which must be of participatory nature.

### CE Credits

16 hours of participation credit for those who attend the 2 days of lecture and hands-on. 34 total hours of participation credit to those who attend the 2 days of lecture and hands-on, complete the assigned protocol in their office, and return to document the protocol assignment.

### Protocol Reporting Session

The reporting session for in-office protocols from previous Mastertrack sessions will be held at 5:00 PM on Thursday, Sept. 15, 2016 at Holiday Inn, Itasca, IL

**Please RSVP to:**

**Dr. Sy Wachtenheim by September 5, 2016 to present protocol reports on past Mastertrack Sessions.**

### Meals

Attendees will be furnished a continental breakfast each morning, lunch each day, and a Friday night banquet, the Dr. Barry Karlov Memorial Bash.

### Who Should Attend?

These hands-on programs were originally designed for AGD Fellows striving to be AGD Masters, but we've learned that these programs can be valuable to all dentists—from new grads to the most experienced clinicians.

### Program Site

Fax 847-905-7271  
tzaner2@gmail.com**

**Register Online at [ILAGD.org](http://ILAGD.org)**

## Speaker's Biography

Dr. Koerner is Director of Oral Surgery for Intermountain Dental Associates in Utah. He is also adjunct Professor in Oral Surgery at Roseman University of Health Sciences, College of Dentistry in Utah. He is not an Oral Surgeon, but received surgery training in the US Army, where he completed a general practice residency.

Dr. Koerner has presented hundreds of didactic and participation oral surgery courses in the US and around the world.

## Course Description

Many extractions look easy, but can become difficult, time consuming and lead to problems. This course reviews the best techniques and instruments to remove "surgical" extractions easily and quickly while conserving bone. It also covers multiple extractions, ridge preparation for immediate dentures, moderate 3rd molar surgery impactions and avoiding or managing common surgical complications, such as sinus misadventures, excessive bleeding and tuberosity fractures. Also included is predictable socket bone grafting.

## Course Objectives

1. More easily do "surgical" or difficult extractions that frequently occur in general practice.
2. Be more proficient at ridge preparation for immediate dentures.
3. Prevent and/or manage complications that can occur during oral surgery.
4. Perform predictable socket bone grafting.

## New Dentists!!!

Two full Scholarships will be made available at each program to AGD member dentists who have graduated less than 3 years ago! For information, contact: Dr. Sy Wachtenheim at [tzaner2@gmail.com](mailto:tzaner2@gmail.com) or call 847-858-1927.
